EDUCATION

KLH University

2025 – 2029

Bachelor of Technology (B.Tech) in Computer Science and Information Technology

- Academic Performance: Exceptional cumulative grade point average of **9.93 / 10.00**.
- Core Focus Areas: Advanced Data Structures, Architectural Design Foundations, and Object-Oriented Principles.

TECHNICAL SKILLS

Languages:	Java (Core & Fundamentals), C Programming, JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries:	React.js (Component-driven architecture, state tracking)
CS Fundamentals:	Data Structures, Algorithms, Object-Oriented Programming (OOP)
Tools & Platform:	Git, GitHub, Visual Studio Code (VS Code)
Core Tracks:	Backend Architecture, Full Stack Engineering, Artificial Intelligence foundations, Machine Learning logic

TECHNICAL PROJECTS

Airline Booking System – React Reservation Platform

Ongoing

- Engineered an engineering roadmap for a multi-module flight reservation architecture, modeling high-concurrency client workflows.
- Developed structured flight search and booking layout flows utilizing a modular, component-based React framework.
- Created a cross-platform responsive user interface optimizing viewports for smooth customer experiences.

PreSareeFinder – Local Storage Retail Application

Completed

- Built an interactive product discovery interface optimized for specific niche retail tracking.
- Implemented persistent operational mechanisms using client-side Browser Local Storage structures for lightweight state lifecycle tracking.
- Designed a clean client UX layout to ensure intuitive product browsing transitions across varying viewports.

NutriScope – AI-Assisted Nutrition Concepts Dashboard

Completed

- Designed high-fidelity interactive dashboard architectural concepts focused on data-driven physical wellness metrics.
- Mapped analytical flow pipelines integrating foundational artificial intelligence models with visual front-end structures.

Environmental Health Analyzer – Analytics Dashboard

Completed

- Constructed a functional metrics visualization framework for parsing regional environmental indices.
- Programmed modular interactive reporting blocks to enable quick extraction of ecological health data trends.

Professional Portfolio Website – Personal Showcase Architecture

Completed

- Deployed a highly responsive technical repository showcasing project deployments and live tracking metrics.
- Integrated synchronized professional voiceover assets directly within the UI layout to elevate user interaction fidelity.

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- CodeChef Rank Profile:** Attained a Highest Peak Competitive Rating of **1325**; established a Peak Data Structures & Algorithms Score of **906**.
- Model United Nations:** Awarded **Best Commendable Delegate** representation for the UNDP Madagascar assembly, proving elite executive articulation, consensus-building, and communication competencies.

CERTIFICATIONS

- Java Fundamentals Certification** – Scaler Academy
- HTML, CSS, and JavaScript Essentials** – Cisco Networking Academy
- AI Foundations and Beginner AI Projects** – Unlax Academy
